Speakers:

Sarah M. A. Caney BVSc PhD DSAM(Feline) MRCVS RCVS Specialist in Feline Medicine

Sarah is a 1993 graduate of the University of Bristol where she also did her residency in feline medicine and PhD. She is an RCVS Specialist in Feline Medicine and enjoys seeing a mixture of first opinion and referral feline patients. Sarah is especially interested in the care of geriatric cats and her company conducts clinical research via Specialist clinics she runs at Edinburgh vet school and online questionnaires submitted by cat owners. She has written a number of books for cat owners and veterinary professionals including 'Caring for a cat with kidney failure' which is published by her company Cat Professional (www.catprofessional.com).

Elizabeth Dill-Macky BVSc(Hons) DipVetClinStud MACVSc Diplomate ACVIM

Elizabeth graduated from the University of Queensland, Australia and then undertook a small animal internship at the University of Sydney. Her specialty training was undertaken in the USA where she did a small animal medicine residency at the University of Florida followed by a clinical instructor position at the University of Pennsylvania. After working in private practice in Australia and the UK, she spent eight years working as a small animal medicine clinician at the University of Sydney. She then became one of the internal medicine specialists and a director of the Animal Referral Hospital, a 24-hour referral and emergency hospital in Sydney. Elizabeth is a Diplomate of the American College of Veterinary Internal Medicine and a Member of the Australian College of Veterinary Scientists.

Grant Petrie MA, VetMB, CertSAC, CertSAM, MRCVS

Grant, a double certificate holder, in Cardiology and Small Animal Medicine, is a faculty member of the Royal Veterinary College. He was appointed President of the BSAVA in 2010. He has worked both in general practice and at the Royal College as a resident and teacher. His main fields of interest include Cardiology, medical oncology, endocrinology (esp. Diabetes), immune mediated diseases and haematological disorders.
